Next Step In Your Rehabilitation Journey

It helps you :

- ◆ Improve mobility with assistance
- ◆ Increase strength with resistance
- ◆ Simulate ADL Activities
- ◆ Measure progress objectively
- ◆ Train cognition and co-ordination

If you are recovering from :

- ◆ Multiple sclerosis, ALS
- ◆ Post-surgical recovery
- ◆ Spinal Cord Injuries
- ◆ Stroke
- ◆ Bone fractures
- ◆ and more...

Training With Mobi-L The Most Versatile Technology Built for you

Upper Limb Exercises

Build muscle power with gross and fine motor exercises to eat food independently

- ✓ Wrist
- ✓ Elbow
- ✓ Shoulder
- ✓ Forearm

Lower Limb Exercises

Strengthen your lower limbs so you can walk like before

- ✓ Ankle
- ✓ Knee
- ✓ Hip

ADL Training

Get back your active life by training various activities of daily life in a virtual environment

- ✓ Driving
- ✓ Opening a door knob
- ✓ Pouring water from a cup
- ✓ Grip and Release
- ✓ Opening a key and more...

Modes of Rehabilitation

- ◆ Assessment Module
- ◆ Assistive Training Module
- ◆ Active & Resistive Training Module
- ◆ 2D Gaming Module
- ◆ 3D ADL Simulation Module
- ◆ Data Analytics Module

Assistive Training with Mobi-L

Training Options with Assistance:

- ◆ Continuous Assistive Mode
- ◆ Triggered Assistive Mode
- ◆ Active Assistive Mode
- ◆ Assistive Resistive Mode

The above modes focus on gradually increasing your mobility

Active & Resistive Training with Mobi-L

Training Options with Resistance:

- ◆ Active Resistive Mode
- ◆ Dynamic Resistive Mode
- ◆ Isometric Mode
- ◆ Elastic Resistive Mode

Above modes focus on increasing your muscle strength

Game Based and ADL Training with Mobi-L

Train memory, control, co-ordination, cognition, proprioception along with range of motion and muscle strength in 3D simulated environments.

- ◆ 12 games with 9 levels
- ◆ 15 ADL simulation
- ◆ Cognition training
- ◆ Fun and engaging gameplay

VR and Game Based

Robot Assisted

Measureable

A must have companion, in your pursuit of physical independence
